ABOUT ME

Ciao! I'm Andrea, I'm a Full Stack Engineer with a Front End focus and a vibrant passion for tech and design. I love solving complex problems and consider coding a passion of mine! I constantly work to improve my skills, as I deeply value a strong engineering culture. I work hard to build great features that I can be proud of, without forgetting to be humble and taking my responsibilities. As I like to say: in life, you win and you learn!

EMPLOYMENT HISTORY

FULL STACK ENGINEER, LASCAUX SRL (AREZZO, TUSCANY, ITALY)

September 2019 - Present

- Engineered many web applications for Italy's top banking and precious metals companies, ranging from complex architectures with as much as 14 micro services to standalone, smaller web apps.
- Created and maintained Angular libraries used company-wide both on projects and products.
- Held lessons on Lascaux's Academy for fresh grads, teaching Java EE, Web services, and REST/SOAP. Mentored many interns and junior developers.
- Defined the development strategy for the whole stack of a project, and provided junior developers with support on both ends.

EDUCATION

DIPLOMA IN ICT, ITT G. FERRARIS (SAN GIOVANNI VALDARNO, ITALY)

September 2014 - July 2019 (5 school years)

- Graduated with a score of 92/100
- Specialised in Information & Communication Technology
- Tackled computer science related subjects: Programming, Algorithms, Networks, Project Management
- Participated in Italy's Robocup Junior 2018, writing our robot's path finding script

CERTIFICATIONS
